

District 13 Report
Area Assembly, June 6, 2020

This is not much of a report since so many of our meetings have temporarily closed. However, some are still meeting on Zoom, and reports are that these meetings are well received! We have not held a district-level meeting since February.

Personally, I have found phone calls and text conversations with my fellows to be even more important than ever before. And our FORUM is always a lifeline and a great reminder of this large family that I belong to!

Needless to say, we all look forward to a real (as opposed to virtual) assembly in October in Iowa City. At the same time, I give thanks for our area leadership who have worked hard to make this virtual assembly possible. They were able to “think outside the box.”

Jill G., DR
