

Greetings,

Conversing with District 2 GR'S, it is a common consensus that groups are trying to work out an answer to the question, "do we go back to face-to-face meetings?" Some of our groups have had a big growth in attendance in the virtual meetings, with even out of state and country attendance, and find it difficult to go back to a meeting of three or four members. There has also been discussion about the "newcomer". Some suggestions of outdoor or once a month face-to-face meetings were entertained. Each group has plans to make decisions in the near future.

In service,
Kathy B. DR2
