

Greetings from District 4.

Currently roughly half of our meetings are in-person and half are online.

For public outreach, we have been distributing our outreach business cards with the local and WSO Al-Anon website addresses and hotline number to local police departments. Police chiefs have been glad to provide a resource that may help someone. The cards are a discrete way to pass out information about Al-Anon. We are also going to have an outreach booth at the local Farmer's Markets this summer. It will be good to have an in-person presence out in the community again.

Yours in Service,

Kristine N.
