

Fall Assembly 2021

Hello everyone,

The Google Task force has met twice since the last AWSC meeting and has been extremely busy. First, we met to discuss what was being asked of us by the ASWC and how we needed to respond. As a team we agreed that there is information we do not know and a training would be helpful.

Our second meeting we discussed different topics that members decided would be good to learn. Since some members have more experience with Google Platform than others some topics will be covered by members. Other parts will be covered with a special training on Oct. 30th by an expert.

Sincerely,

Jamie V. District 11
