

Newsletter Coordinator Report
October 2022

As we wrap up the term and prepare for elections this weekend, I hope each of you is considering how you can be of service in the next term, either at the group, district, or area level. It's been an unusual term and we've all learned so much.

My role at Newsletter coordinator was my first area position. I also served at a group representative for the first time this term. I can't believe how much I've grown through this service. I'm excited to see what the next term brings! We have a great area and it takes volunteers from all over the state to make happen. I hope each of you will step up to make a difference.
