

Technology Coordinator Report March 9,2025 AWSC

The last couple of months the topic on AFG Connects-Technology Coordinators has been information/discussions on the Technology Coordinator job descriptions and Area Technology guidelines. Since this is a fairly new committee on AFG Connects, WSO has developed discussion topics for each month. As we go into 2025, I am hoping they will begin to compile some data to do a specific guideline for Technology Coordinators just as they have for other service positions.

I continue to research technology items that can help our Area advance and have reached out to some other coordinators for information on podcasts and webinars they are attending. I am excited to join some of them and increase my knowledge.

As always, if you have questions about technology, or ideas for some training options, please feel to reach out to me. I can't promise an answer to everything but together we may be able to figure it out together.

Connie H.
Area Technology Coordinator
