March 2027 AWSC – Discussion of the meeting being virtual:

I have been asked to put this item on the agenda for discussion. We currently are holding the January AWSC virtually and it has worked well.

The question has been raised if the March AWSC should also be virtual.

Thoughts to having the meeting virtual:

- Saving of expenses of the room and AWSC reimbursements.
- Won't have to deal with the possibility of bad weather.
- In the past, the March AWSC and the Service Workshop in March are held the same weekend. Some members would stay overnight and then attend the March AWSC meeting.
- Missing out on face-to-face fellowship.

Service Workshop - discussion:

- Do we want to continue having the Service workshop?
- In person/hybrid as we have been or virtual?
- March or in August?

It was suggested that I put together a list of the past few years to see how many members have attended. Unfortunately, I did not have time to pull this information together. I do know that last year we had good participation (25?) and 6-8(?) that attended on Zoom.

Obviously, Covid affected a few years, but overall attendance has increased since then.

Salons - 2026 – discussion:

Do we want to continue with Salons (started during Covid).

If yes what topics could be presented?
