District 13 Report for AWSC August 9, 2026

Our meetings remain healthy, with steady attendance.

This summer I have focused on getting to know District 13 better through attending meetings I do not usually attend, having conversations with Members on the topic of service, and updating our District 13 meeting and contact information with the Area and the WSO. There is a continuing need for Public Outreach, however no Members have yet to step forward. I am meditating on ways to address this, for example, by proposing specific outreach projects Members could work on together without assuming the title of Public Outreach Chair. Focusing on a single project may seem more feasible for some Members than taking on a leadership role. More will be revealed.

Our District 13 website, while not ideal, is currently functioning.

At our July District Meeting, four members (including myself) shared about attending the Spring Assembly and the benefits of service participation.

In service,
Kevin S.
DR/D13
